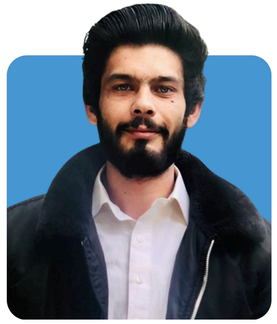
StellarStack



Amish Maqbool Khan

Chief Technology Officer & Founder

Welcome To StellarStack!

At **StellarStack,** we don't just build software—we engineer **innovation, scalability, and impact.** Our mission is to push the boundaries of technology, crafting high-performance digital experiences that empower businesses and accelerate growth.

Founded by **Amish Maqbool Khan,** a seasoned technologist, UI/UX strategist, enterprise full-stack engineer, and software architect with over a decade of experience, StellarStack is built on a foundation of **cutting-edge development, AI-driven solutions, and end-to-end SaaS/PaaS innovations.**

Our expertise spans across **DApps, PropTech, FinTech, and world-class design—**turning visionary ideas into scalable, high-impact digital products. With a team of **elite engineers, designers, and strategists,** we've successfully delivered **enterprise-grade applications, custom software, and eCommerce ecosystems** for startups, SMEs, and Fortune 500 companies worldwide.

Whether it's **AI-powered SaaS platforms, complex enterprise solutions, or next-gen web applications,** we go beyond functionality—delivering solutions that drive **real impact and lasting innovation.**

Let's build something extraordinary.

Company Story

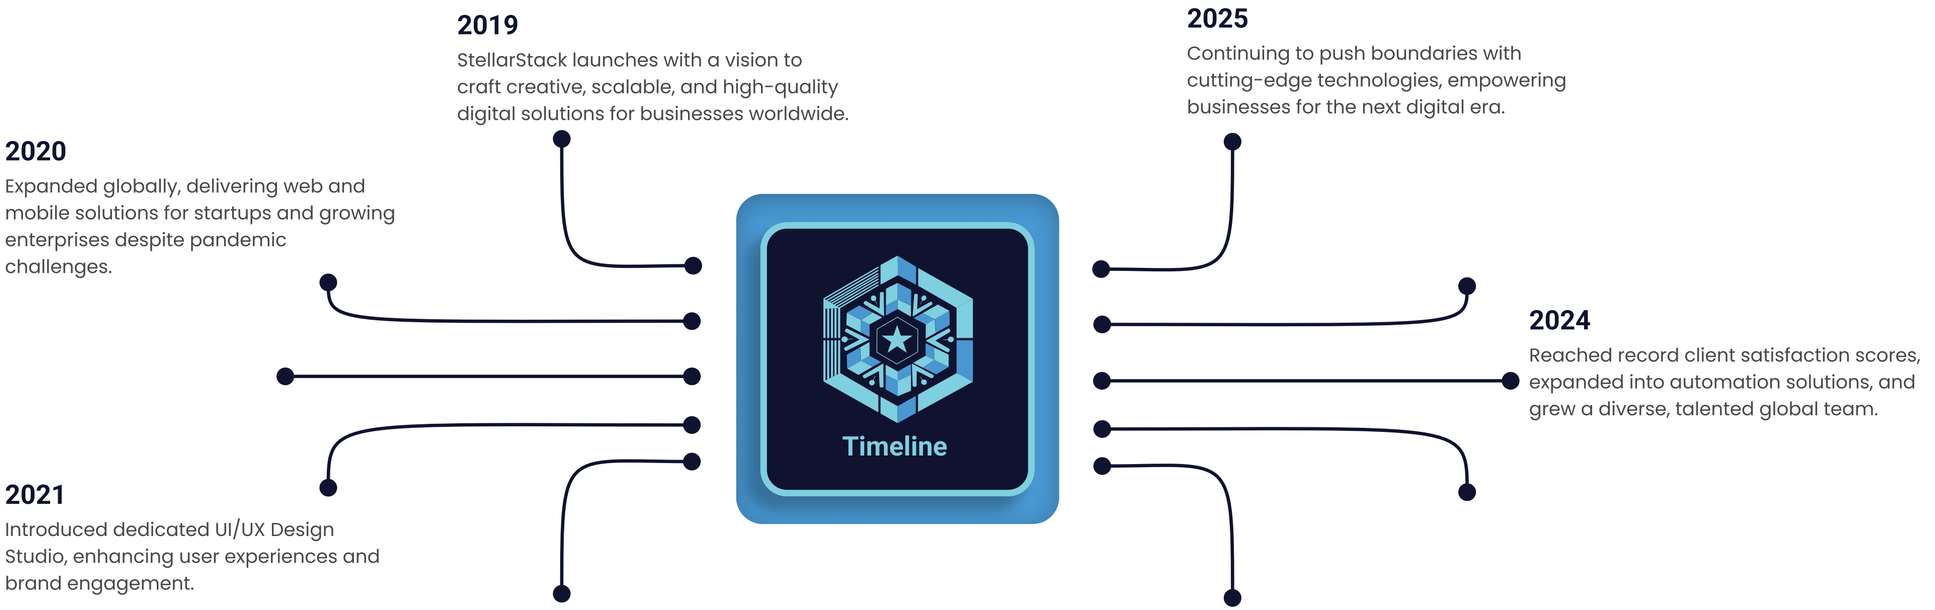
Our Story

We craft scalable digital solutions that empower businesses to thrive in the modern world. From startups to global enterprises, our team combines intuitive design, technology, and innovative thinking to create products that deliver lasting impact.



2019
StellarStack launches with a vision to craft creative, scalable, and high-quality digital solutions for businesses worldwide.

2020
Expanded globally, delivering web and mobile solutions for startups and growing enterprises despite pandemic challenges.

2021
Introduced dedicated UI/UX Design Studio, enhancing user experiences and brand engagement.

2022
Launched Technology Modernization Services, helping enterprises upgrade and future-proof their systems.

2023
Partnered with leading global brands, delivering innovative, AI-powered, and performance-driven products.

2024
Reached record client satisfaction scores, expanded into automation solutions, and grew a diverse, talented global team.

2025
Continuing to push boundaries with cutting-edge technologies, empowering businesses for the next digital era.

Company Overview

Since 2019, StellarStack has specialized in IT staff augmentation and technology solutions—bridging innovation with talent. With a focus on transparency, collaboration, and agility, we help businesses scale their tech teams and deliver transformative digital success.

What We Stand For

Our Mission

Imagine. Implement. Innovate.
More than just a slogan, this principle fuels our mission to deliver superior services and groundbreaking solutions that meet and exceed customer needs.

Our Vision

To shape the future by leading in innovation, delivering cutting-edge solutions, and staying committed to excellence in the digital world.

Our Values

We push boundaries, set high standards, and always put our customers first. These values define who we are and guide everything we build.

Relentless Pursuit Of Innovation

We embrace emerging technologies and create solutions that shape the future.

Top-Shelf Quality

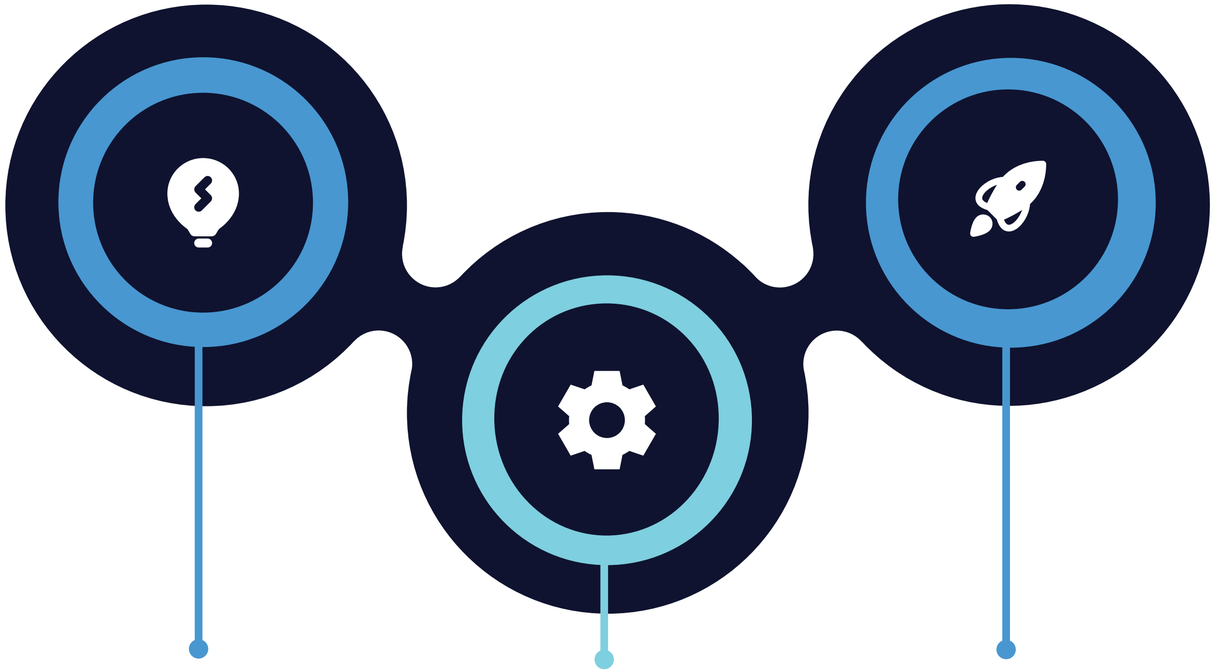
Through expertise and rigorous testing, we ensure excellence in every product.

Exceptional Customer Focus

Personalized service, transparent communication, and long-term partnerships drive our success.

Our Approach

At StellarStack, we deliver **high-performing, on-demand software engineering teams** that empower the world's leading brands.



Beyond Coding

Our elite engineers act as **strategic partners,** solving complex challenges with precision and innovation.

Value-Driven Craft

Every decision, feature, and interaction is **meticulously designed** to maximize business impact.

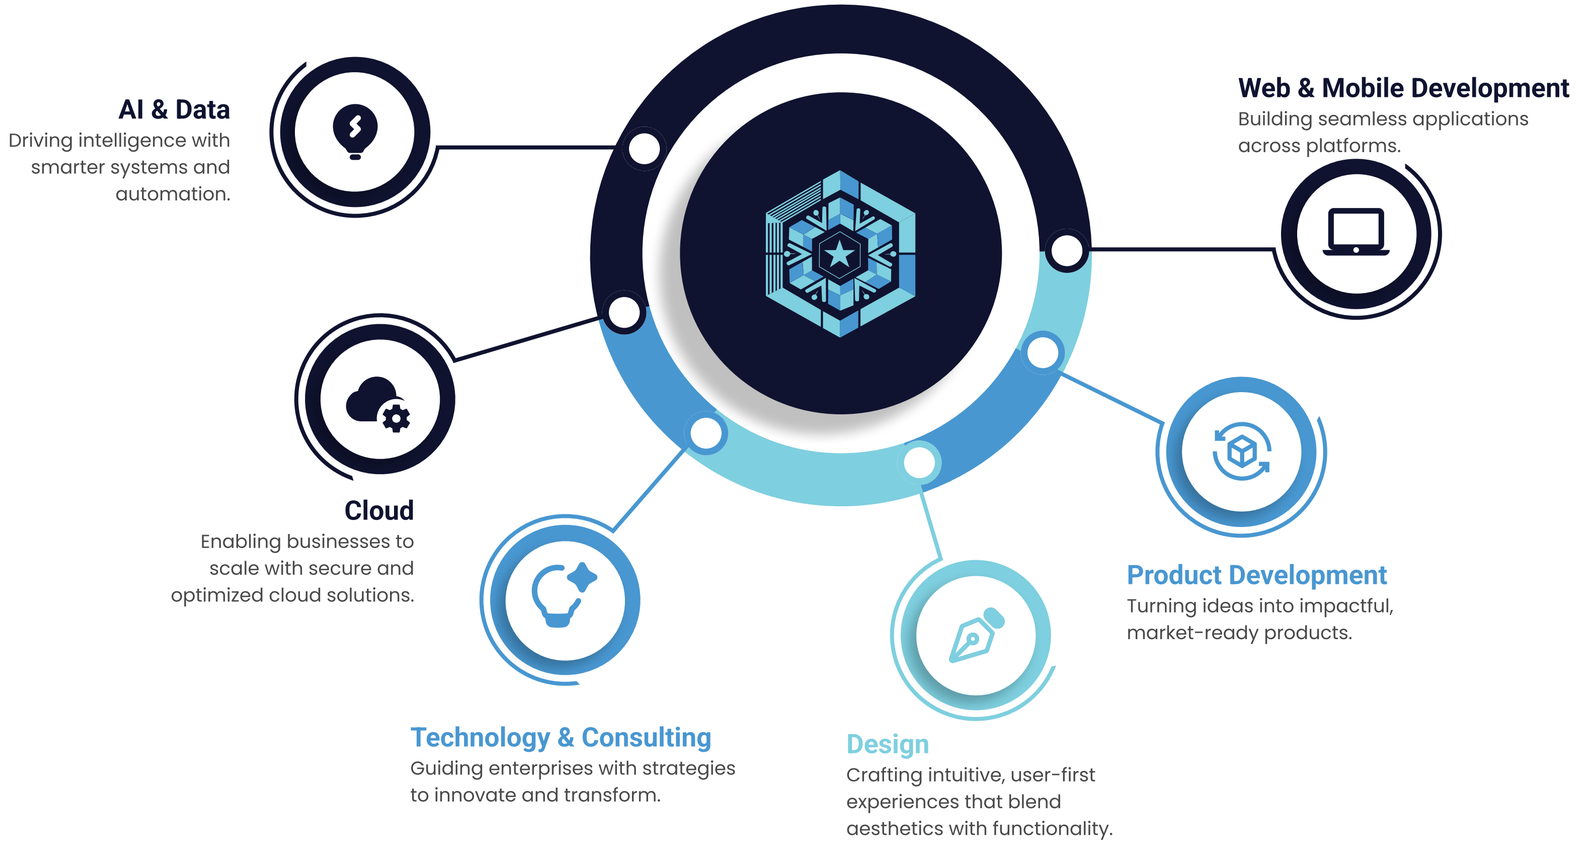
Our Guiding Principle

Imagine. Implement. Innovate. This is the foundation of how we think, build, and deliver.

Business & Services

Departments

At **StellarStack,** our strength lies in our specialized departments, each powered by expert teams dedicated to innovation and excellence. We believe in collaboration, knowledge-sharing, and continuous growth, enabling us to deliver impactful solutions for every client.



Business & Services

Development

The **Development Divisio**n at **StellarStack** transforms ideas into scalable digital products. With a strong foundation in modern technologies, our teams deliver tailored solutions that empower businesses to grow and thrive.

Our Expertise

AI Development & Machine Learning

We deliver custom AI solutions with NLP, anomaly detection, and automation to achieve measurable results.

Quality Assurance

Integrated manual and automated testing to guarantee reliability and performance.

Data Engineering

From data pipelines to real-time decision systems, we transform raw data into actionable insights.

UI/UX & Product Design

Designing dashboards, SaaS interfaces, and prototypes that balance usability with creativity.

Cloud Strategy & Migration

Our experts help enterprises maximize cloud potential and ensure smooth, secure transitions.

Product Development

From concept to launch, we build digital products backed with documentation and project support.

Web & Mobile App Development

High-performance web apps and engaging cross-platform mobile apps tailored for growth.

Python Development

Unlock possibilities with Django, Flask, and FastAPI for scalable and reliable solutions.

Business & Services

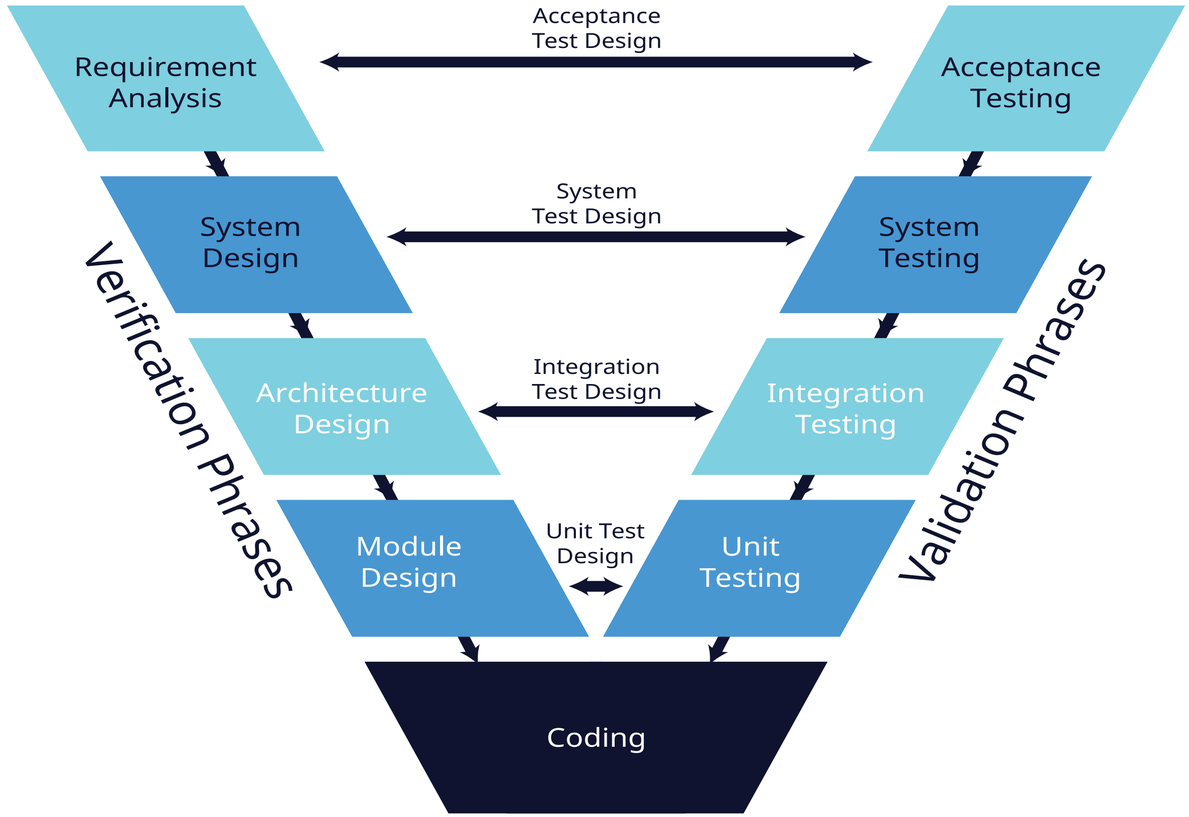
Our Services

We deliver a diverse range of services designed to help businesses innovate, scale, and succeed in today's digital landscape.

Business & Services

Our Process

At **StellarStack,** our process ensures clarity, collaboration, and consistency at every stage. We align with your goals, plan strategically, and execute with precision — turning complex challenges into seamless digital solutions.



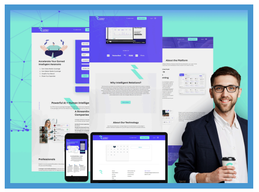
Business & Services

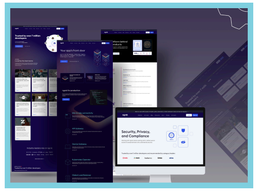
Projects

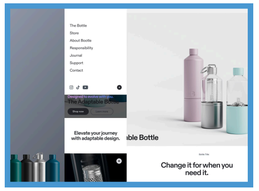
At StellarStack, we deliver innovative, technology-driven projects for startups, enterprises, and global brands. From scaling existing systems to building new applications, our focus is always on creating measurable impact.

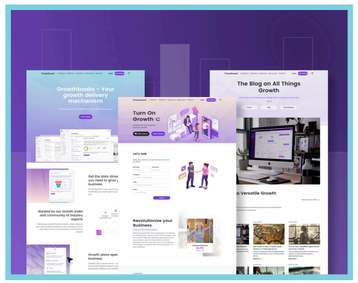
With multidisciplinary teams in backend, frontend, AI/ML, QA, DevOps, and UI/UX, we handle every stage of development — from concept to deployment and ongoing support.

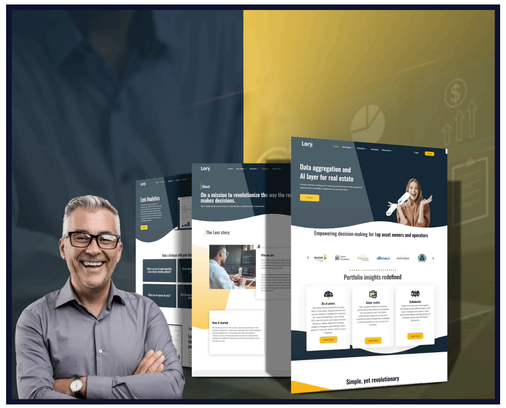
We have successfully served clients across **Canada, Pakistan, the Middle East, and Asia,** covering industries such as **fintech, healthcare, real estate, e-commerce, and sports.** Our global presence empowers us to execute complex projects with agility, precision, and creativity.

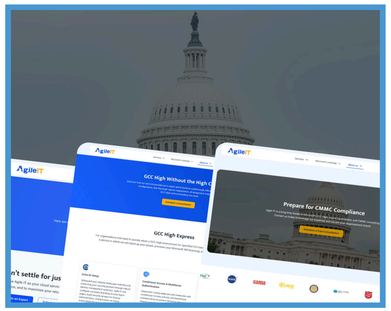












Business & Services

Featured Projects

MAXIMIZING MICROSOFT CLOUD INVESTMENTS

Key Features:

AgileIT empowers businesses to harness the full potential of their **Microsoft cloud investments,** ensuring they achieve the **power and promise** they've bet their business on. With **AgileIT and Microsoft,** businesses can confidently navigate the **digital landscape.**

Technology Stack:

StellarStack

Business & Services

Featured Projects

ENHANCING QUICKNODE'S HEADLESS BLOCKCHAIN PRODUCT WEBSITE

Key Features:

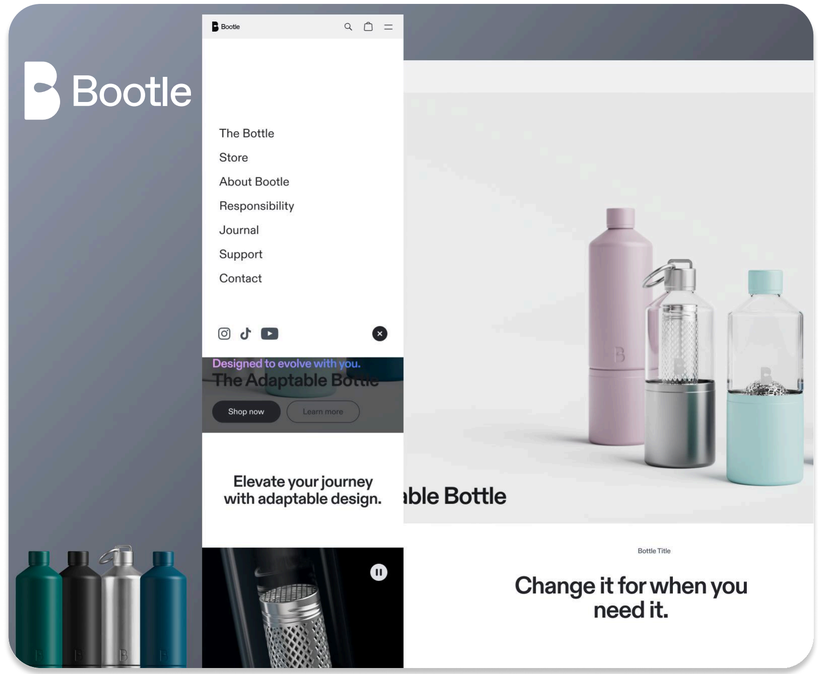
QuickNode is a leading **blockchain infrastructure provider,** empowering developers to build and deploy d**ecentralized applications** with ease. The project focused on enhancing its **headless blockchain product website**, ensuring a **seamless, responsive, and high-performance user experience** through modern **tools and frameworks.**

Technology Stack:

Business & Services

Featured Projects

BOOTLE.IO – DELIVERING A SEAMLESS AND SCALABLE E-COMMERCE EXPERIENCE



Key Features:

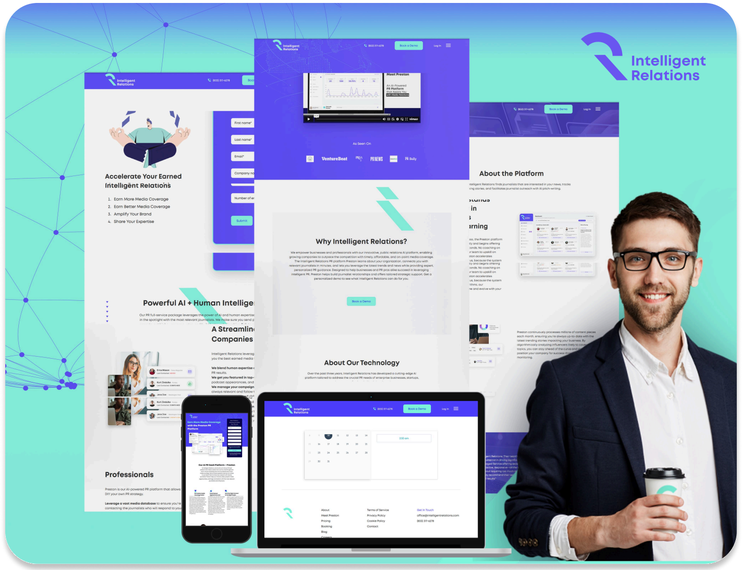
BOOTLE.IO is a modern e-commerce store specializing in innovative bottle designs. The platform was built using **Shopify** for product management and checkout flows, **Remix** for the web framework, and **Sanity** for content management. Hosted on **Hydrogen**, the store delivers a seamless shopping experience with a focus on performance, scalability, and user engagement.

Technology Stack:

Business & Services

Featured Projects

PRESTON TECHNICAL DOCUMENTATION



Key Features:

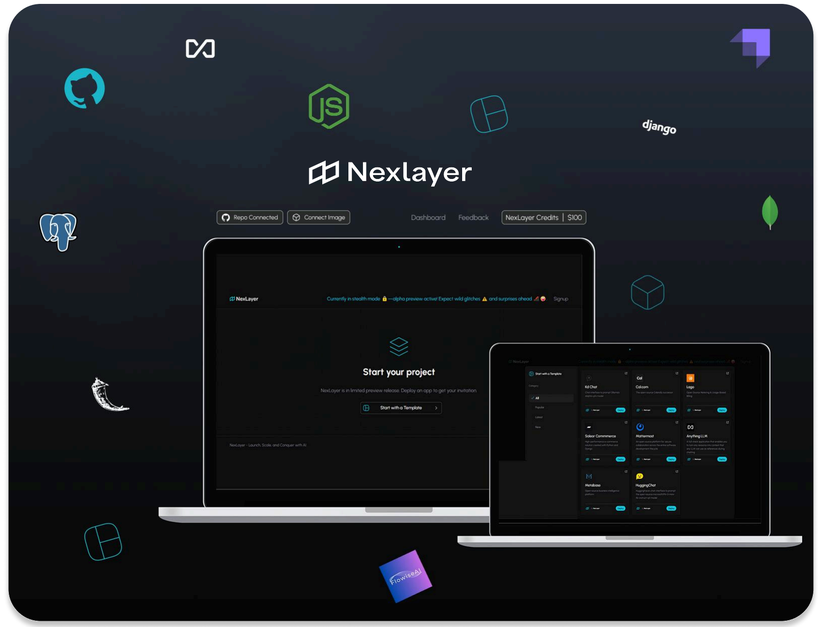
Preston is an **AI-powered** PR **platform** that **revolutionizes** public relations by enhancing **media monitoring** and **AI-assisted** pitch writing. The **Stellar Stack** team developed the **advanced** AI-driven **features** that power the **PR platform**. Using a combination of **React, Blitz.js,** and **Tailwind CSS,** we created a **seamless, dynamic** user interface, while integrating **Google Analytics** and **HubSpot** to track **performance** and optimize **marketing** efforts. Our **technical solutions** ensured **scalability, security,** and **efficiency** in the platform's **operation**.

Technology Stack:

Business & Services

Featured Projects

BLOCKCHAIN INFRASTRUCTURE POWERING SECURE, DECENTRALIZED INNOVATION.



Key Features:

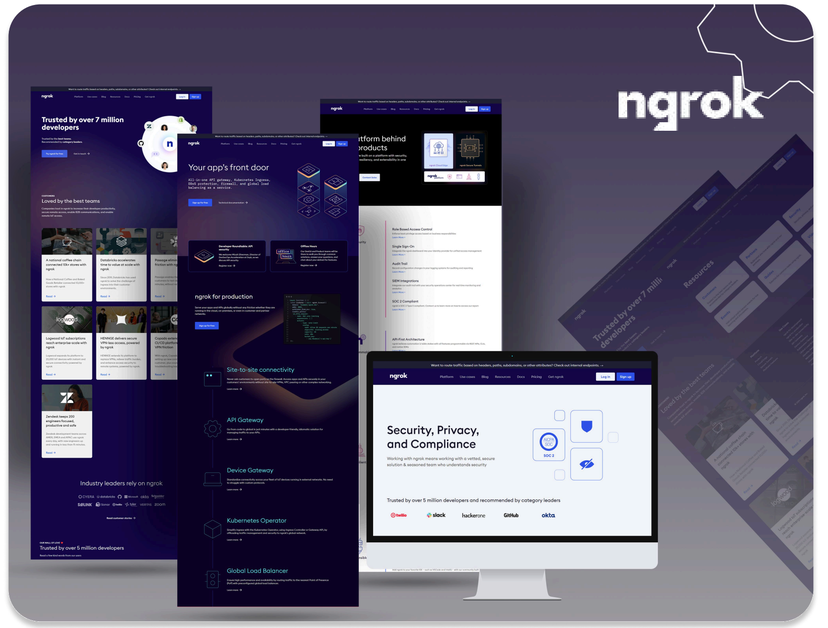
At **Stellar Stack**, we created **NexLayer.io** to **simplify** infrastructure deployment and streamline backend operations. Built with **Kubernetes, Docker,** and **Google Cloud Platform**, it ensures **scalability, reliability,** and **performance**. Powered by Postgres for data management and **Lenz** for **real-time monitoring**, the platform offers **transparency** and **efficiency**. With a **React-based frontend** and **secure backend, NexLayer.io** empowers businesses to **innovate faster, scale smarter,** and **deploy confidently**.

Technology Stack:

Business & Services

Featured Projects

NGROK BLOG: ELEVATING CONTENT DISCOVERY



Key Features:

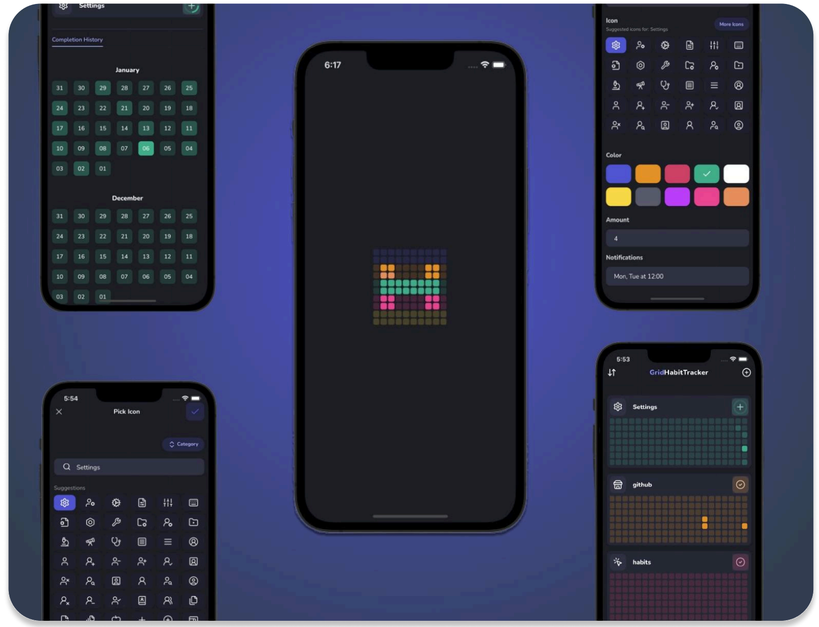
Stellar Stack's Team designed a **platform** with **seamless navigation**, enabling **effortless content discovery**. By implementing **dynamic filtering**, we ensure users can easily find **relevant content** based on their **preferences**. Our design is **fully responsive**, providing an **engaging** and **smooth experience** on any device. We've integrated **powerful search features** and **social sharing** to **amplify reach**. With **Contentful**, we **streamline** content creation and **management**, making it simple for teams to **publish efficiently** while delivering an **intuitive user journey.**

Technology Stack:

Business & Services

Featured Projects

HABITKIT – IOS HABIT TRACKING APP



Key Features:

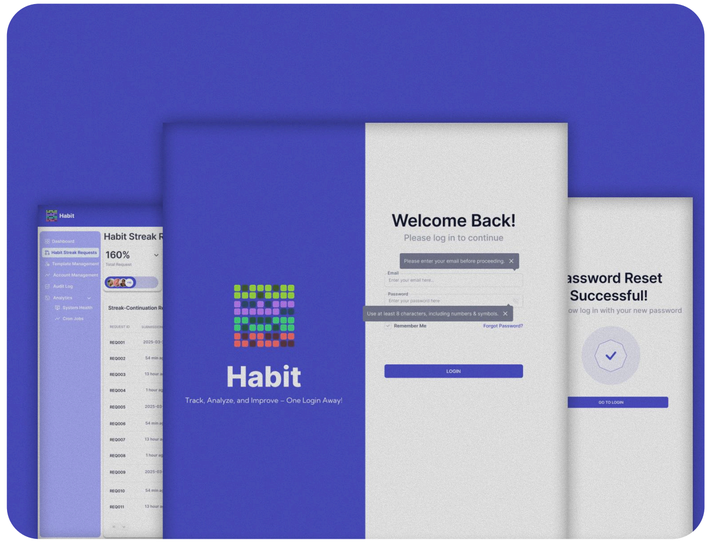
StellarStack's team developed a **privacy-first iOS habit-tracking app** with **offline functionality** and **seamless Apple login.** Built using **WatermelonDB** and **SQLite,** the app ensures **fast local performance** with **custom backend sync logic.** Users can **create, track, and manage personal habits** without needing to register — reducing friction and improving engagement. **Guided onboarding** enhances first-time experience, while **personalized notification slots** keep users on track. The app also handles **multi-device sync** using **encrypted tokens,** ensuring **secure user identification** across sessions. With a **responsive UI built on Expo** and a **scalable backend deployed via Nexlayer,** HabitKit offers a **smooth and secure user journey** from start to finish.

Technology Stack:

Business & Services

Featured Projects

HABITKIT ADMIN – REAL-TIME CONTROL MADE SIMPLE



Key Features:

StellarStack developed a **secure, scalable admin dashboard** to streamline business operations. The **responsive UI,** built with **React.js, SCSS,** and **Bootstrap 5,** ensures a **clean and consistent experience across all devices.** The backend uses **Node.js, Express,** and a **REST API** for **real-time data handling** and efficient **CRUD operations.** A robust **MySQL** database powers **data storage** with **role-based access control** for **admins and employees.** From a **centralized panel,** admins can **manage content, monitor user activity,** and **track analytics** through **dynamic charts and filters,** all designed with **performance and security** in mind.

Technology Stack:

Business & Services

Featured Projects

REALSAGE ANALYTICS: REVOLUTIONIZING DECISION-MAKING FOR RENTAL ENTERPRISES

Key Features:

The **Stellar Stack** team developed **Realsage Analytics**, an **AI-powered platform** enabling rental enterprises to make **smarter, data-driven decisions.** By integrating **seamlessly** with **existing systems** and **external data,** it offers **real-time insights** for **strategic planning.** With features like **local benchmarking, market placement analysis,** and **predictive trends,** it empowers rental operators to **optimize pricing** and **stay competitive.**

Technology Stack:

Business & Services

Featured Projects

OZ SMART STADIUM: REDEFINING SPORTS BROADCAST SOLUTIONS

Key Features:

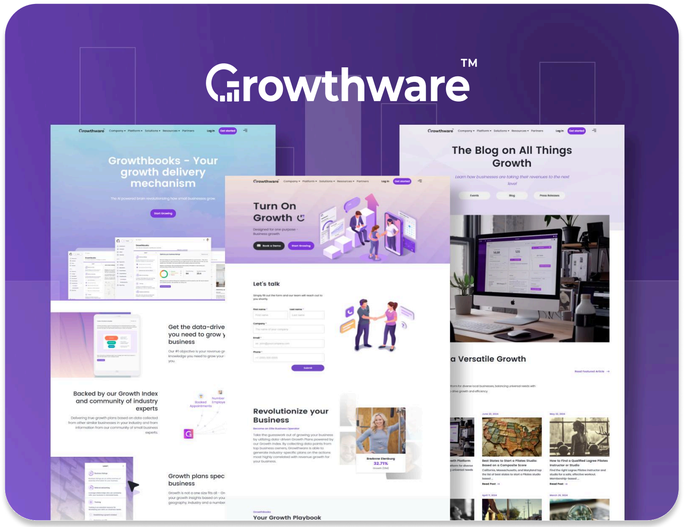
Our team **engineered** a backend using **Neo4j Graph Database** for **efficient data management, Apollo GraphQL** for **streamlined queries,** and **Redis** for **caching** and **session optimization. Real-time data flow** was achieved with **WebSockets,** ensuring **instantaneous updates** of match scores and events. On the frontend, we utilized **SVG-based 4K widgets** and **GSAP animations** to deliver a **highly interactive interface.** Our **AI-driven video intelligence,** powered by over **100,000 annotated frames,** enables **deep insights** into gameplay, setting **new standards** in **sports broadcasting.**

Technology Stack:

Business & Services

Featured Projects

GROWTHWARE: EMPOWERING GROWTH-ORIENTED BUSINESSES



Key Features:

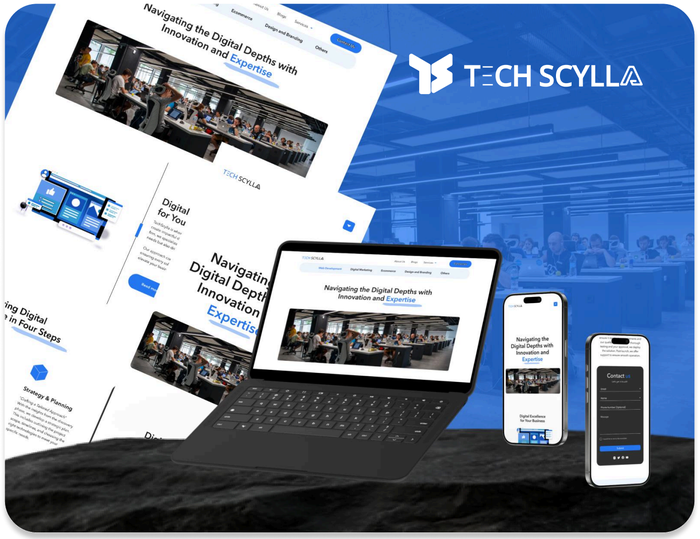
We built **GROWTHWARE** as an **all-in-one platform** to **accelerate business growth** by **streamlining** sales funnel creation and **enhancing customer loyalty.** Using **Contentful CMS** for **dynamic content management, Next.js** and **React.js** for **responsive, high-performance** web pages, and **Tailwind CSS** for styling, we've ensured **seamless integration** and a **smooth user experience.** With this **tech stack,** businesses can easily **identify growth opportunities,** maintain a **competitive edge,** and **nurture prospects** into **loyal customers** for **long-term success.**

Technology Stack:

Business & Services

Featured Projects

EMPOWERING BUSINESSES WITH TAILORED TECHNOLOGY SOLUTIONS



Key Features:

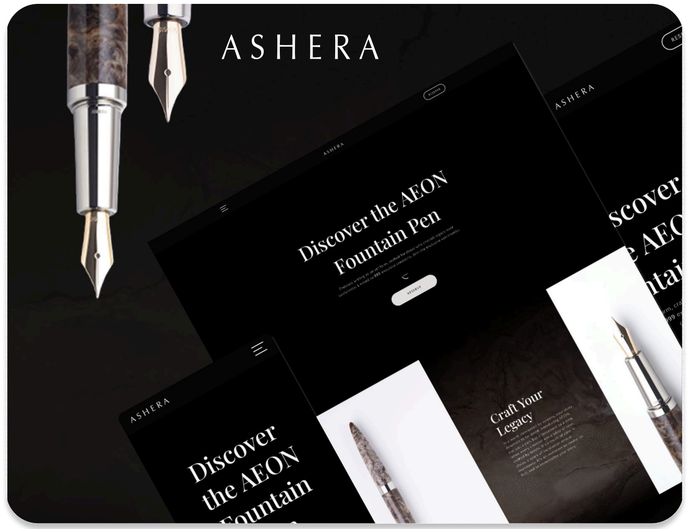
TechScylla, inspired by the **mythological sea monster Scylla,** symbolizes **resilience** and the ability to **navigate challenges.** This comprehensive project, designed and developed **end-to-end,** offers businesses **tailored technology solutions,** ranging from **web and mobile app development** to **digital marketing, e-commerce,** and **brand identity. TechScylla** is positioned to help businesses **transform their visions into reality** by delivering **robust** and **scalable digital solutions.**

Technology Stack:

Business & Services

Featured Projects

MERGING CRAFTSMANSHIP WITH DIGITAL EXCELLENCE



Key Features:

Ashera Design embodies the perfect blend of **precision craftsmanship** and **digital innovation.** Known for their handcrafted **AEON writing instruments, Ashera Design** elevates **creativity and productivity** through meticulously crafted products. This project was **designed first** and then **developed** using a combination of **Next.js** and **Tailwind CSS,** exported to **Webflow** for **flexibility** and **customization.** Every element—from **branding** to **user experience**—was thoughtfully designed to reflect **Ashera's commitment to excellence.**

Technology Stack:

Business & Services

Featured Projects

A WELLNESS ECOSYSTEM FOR BLACK LIBERATION AND ABUNDANCE

Key Features:

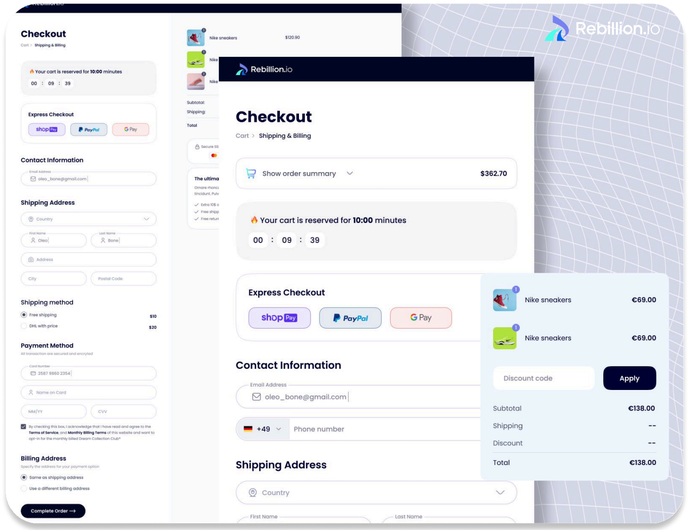
The **BLAQUE Movement** is a **transformative community platform** designed to **empower Black individuals** through **fitness, wellness, and connection.** Founded by **T'Nisha Symone,** the platform aims to foster **Black joy, liberation, and abundance** by creating a **space for physical fitness, wellness, and community engagement.** The project was **developed using React Native** for the **front end** and **Django** for the backend, ensuring a **seamless and scalable user experience.** A key feature of the platform is **personalized exercise sessions** tailored to **individual body types,** configured through **interactive quizzes.**

Technology Stack:

Business & Services

Featured Projects

A FLEXIBLE E-COMMERCE CHECKOUT SOLUTION



Key Features:

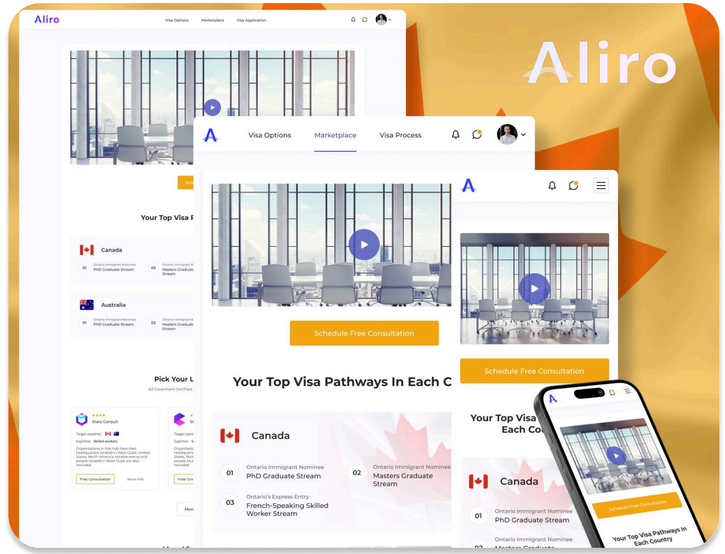
Rebillion.io was an **innovative e-commerce checkout platform** designed to provide **dynamic and customizable checkout experiences** for online stores. Built using the **Quasar Framework (Vue.js-based)** and **Tailwind CSS,** it offered merchants a **seamless way** to integrate **fully customizable checkout forms** into their existing e-commerce stores **without requiring a backend.** The platform aimed to **improve checkout efficiency, reduce cart abandonment rates,** and **enhance user experience** by offering **multiple styling options** that could be embedded as an **external module or extension.**

Technology Stack:

Business & Services

Featured Projects

STREAMLINING VISA APPLICATION MANAGEMENT



Key Features:

Aliro Immigration offers a comprehensive **Visa Application Management System** designed to enhance efficiency for **immigration agencies.** The platform provides features such as **visa CRM, AI assessments, centralized communication, and application management,** aiming to **simplify and streamline** the immigration process for both **agencies and applicants.**

Technology Stack:

Business & Services

Featured Projects

A WEB3 GATEWAY FOR DIGITAL ASSETS

Key Features:

The **Extension Wallet** was a **Web3-based cryptocurrency wallet extension** designed to facilitate **seamless transactions, NFT management, and decentralized app (dApp) interactions.** Powered by the **NEAR Protocol,** it aimed to provide an **intuitive and secure experience** for users managing **digital assets.**

Technology Stack:

Business & Services

Featured Projects

ZIPLINE'S TECH STACK FOR A SEAMLESS USER EXPERIENCE

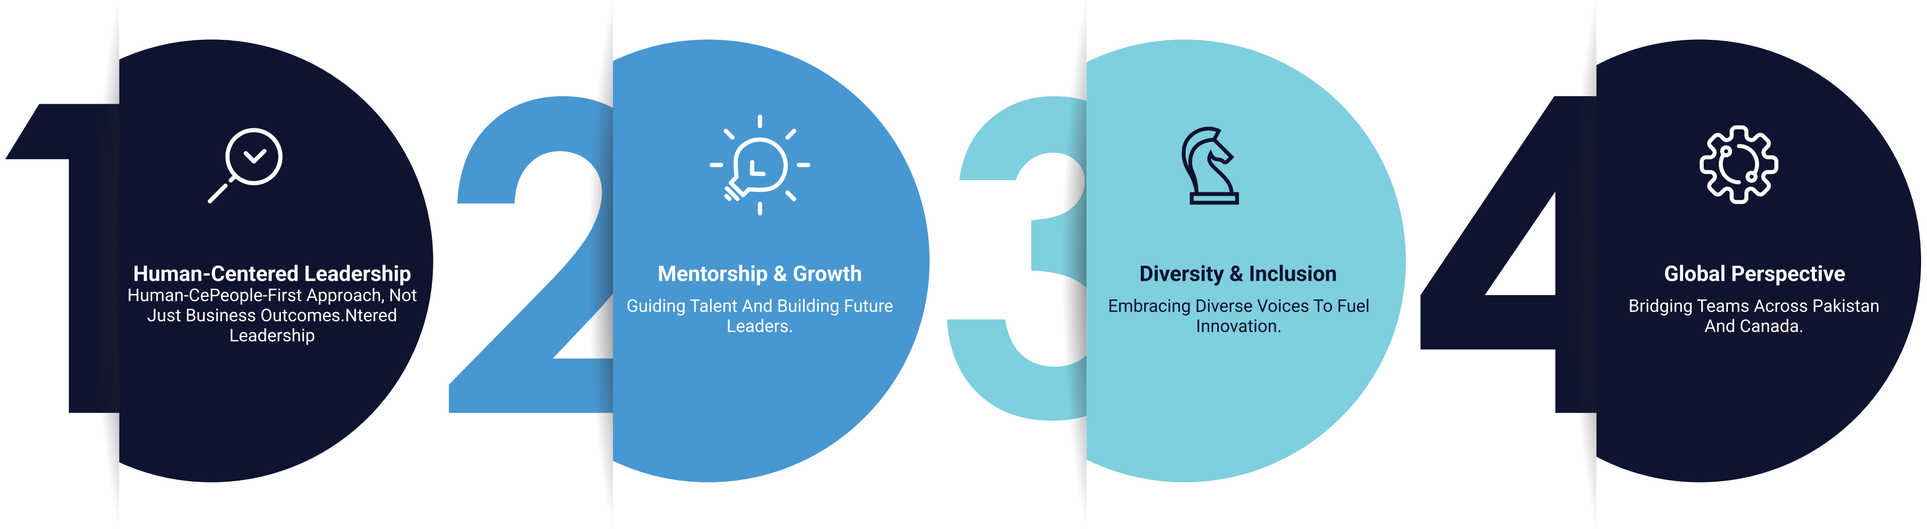
People & Culture

Our Experts

Our leadership team combines vision with execution. They empower teams, nurture talent, and drive innovation by staying future-focused. With years of expertise across industries, they ensure **StellarStack** consistently delivers solutions that make a real-world impact. Beyond strategy, our leaders foster a culture of trust, inclusivity, and mentorship—helping individuals grow while shaping the future of technology. With strong roots in Pakistan and Canada, they bring a truly global perspective to everything we do.



People & Culture

Our Customers

Our customers are at the heart of everything we build—driving us to deliver solutions that empower, inspire, and create lasting impact.

People & Culture

Benefits

At **StellarStack**, we believe in taking care of our team beyond work. From wellness programs to exclusive perks, our benefits are designed to support your growth, health, and happiness every day.

Local Workations

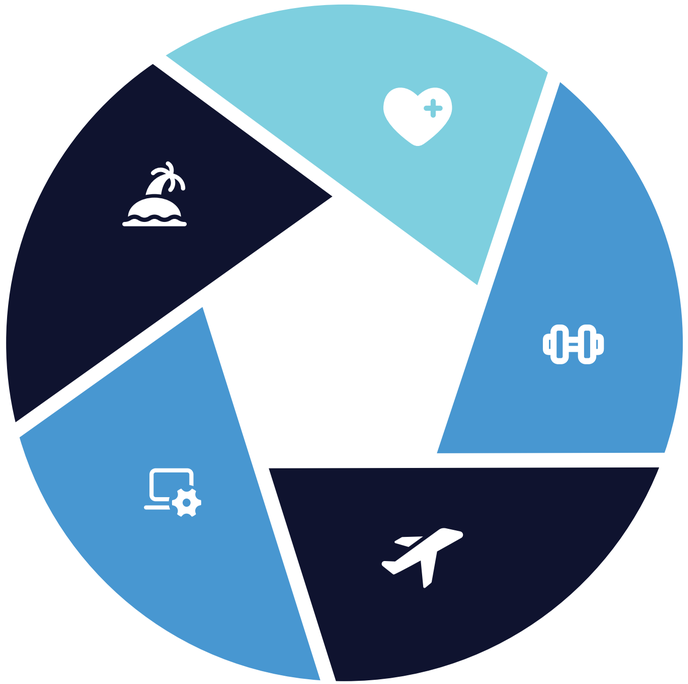
Every quarter, **StellarStack** hosts local workations to bring our community closer. Teams collaborate during the day on projects and unwind with fun activities in the evening, blending productivity with relaxation.

Tech Discounts

We partner with leading computer and tech stores to provide exclusive discounts for our **StellarStack** team. Enjoy access to high-quality equipment at special rates, making your work setup smarter and more efficient.

Workation Opportunities

We embrace hybrid and remote work, but we also value team spirit. **StellarStack** team members have the chance to go on **"workations,"** working together in a location of their choice while enjoying rest and team bonding.



Wellness & Fitness

Team members can join our wellness program, which offers co-financed access to a variety of sports facilities. Whether daily or a few times a month, staying active and healthy is made easy.

Private Healthcare

StellarStack provides options for private healthcare packages. Employees can opt for individual, partner, or family coverage, ensuring peace of mind and access to top-tier medical services.

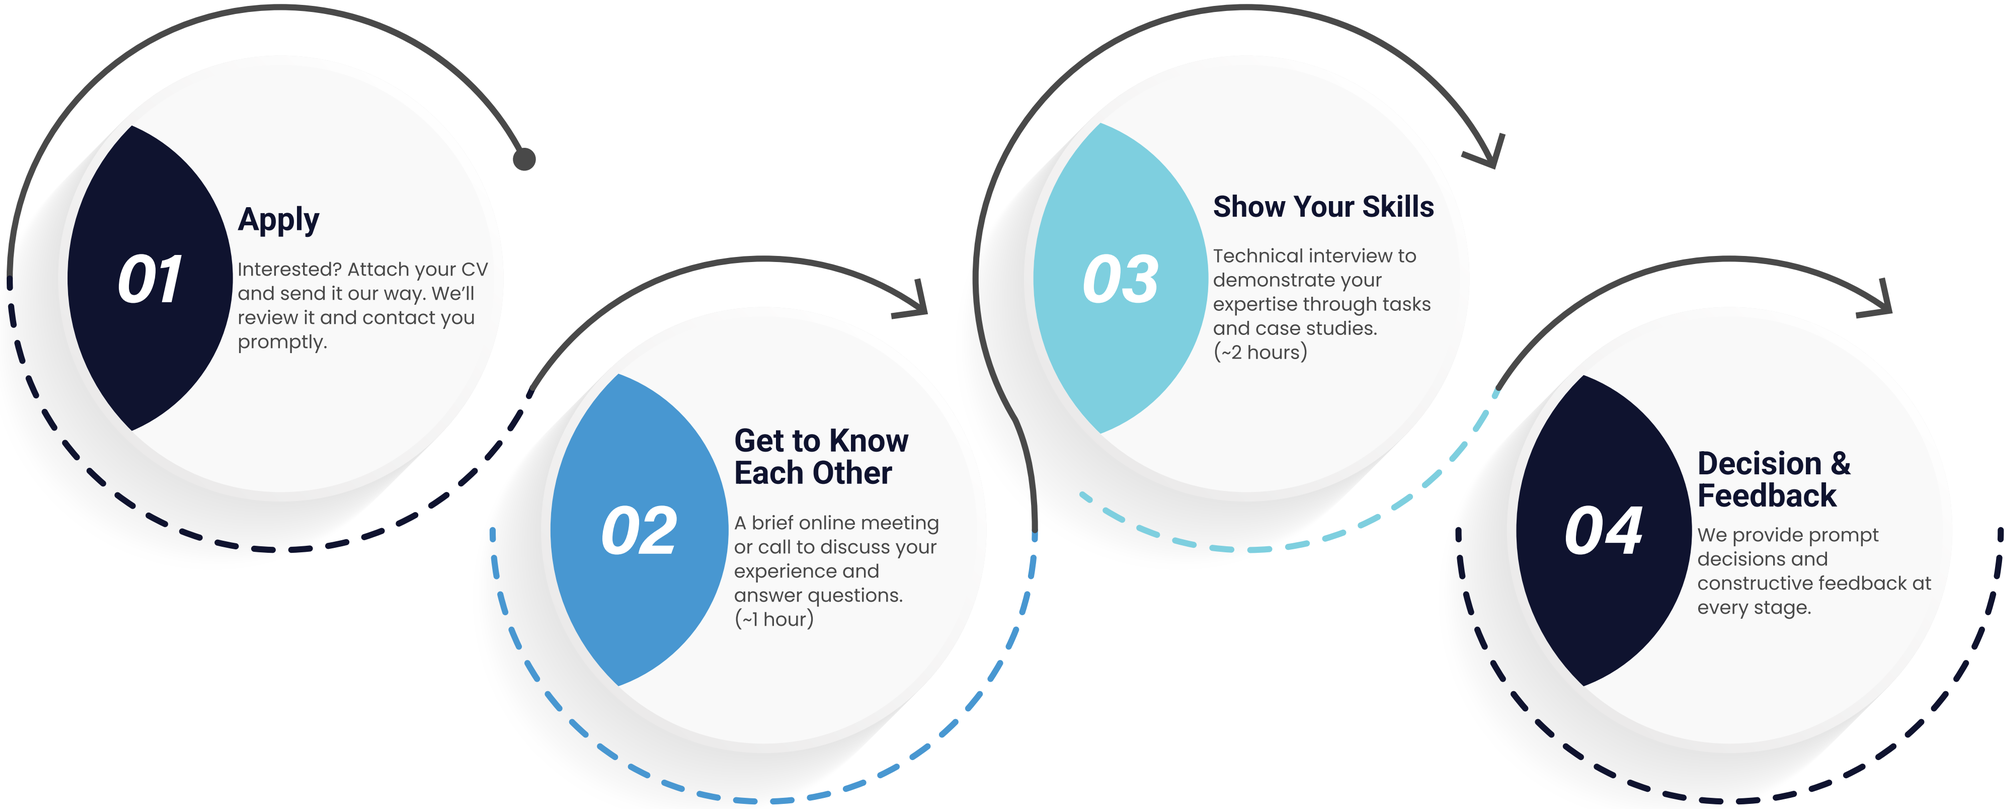
Group Insurance

All eligible team members can participate in **StellarStack's group** life insurance program, offering financial security and support for you and your family.

People & Culture

Recruitment Process

At **StellarStack**, we value people as much as skills. Our recruitment is designed to be **transparent, respectful, and candidate-friendly,** ensuring you know exactly what to expect at every stage.



People & Culture

You’re Hired! What’s Next?

Welcome to **StellarStack**! Your journey with us begins here, and we’re committed to making your onboarding smooth and engaging. From your first day to your first month, we’ll guide you, provide support, and help you settle in while discovering your strengths and potential.

Your First Day:
Start with full-day onboarding sessions to meet your team and get familiar with StellarStack’s environment.

Your First Week:
The first days can feel new and challenging. You’ll have a feedback session with your supervisor to answer questions and guide you through the onboarding process.

Your First Month:
By now, you’ll be involved in projects and implementation talks. You’ll continue to receive support from your team while sharing your own insights and skills.

People & Culture

Internal Events & Initiatives

At **StellarStack**, we believe in learning, sharing, and having fun together. Our events and initiatives foster creativity, knowledge exchange, and team bonding across all levels.

Hackathons & Lightning Talks

Participate in exciting hackathons like IoT or machine learning challenges, where associates propose ideas and compete creatively. Our monthly Lightning Talks let you share project insights, introduce new tools, or discuss lessons learned—showcasing your achievements while learning from peers.

Bootcamps

Our internal bootcamps provide hands-on training for those looking to explore new technologies or shift career paths without changing jobs. Gain practical experience, develop new skills, and receive guidance to advance your career within StellarStack.

Internal Communities

Join technology-focused communities and Slack channels to connect with fellow enthusiasts. Exchange knowledge, get inspired, and collaborate across teams to grow professionally while strengthening bonds with colleagues.

Mentoring

Benefit from a trust-based mentoring program offering 1:1 support from dedicated mentors. Whether you're new or experienced, mentoring helps you develop professionally, ask questions freely, and receive personalized feedback to achieve your goals.

People & Culture

Our People, Our Culture

At **StellarStack**, our team defines who we are. Here, every voice matters, every idea counts, and together we create a culture of collaboration, innovation, and inspiration.

Our team takes initiative, dives into challenges, and delivers high-quality results that seamlessly support your workflow and business success.

Tech & Contact

Our Tech Stack

At **StellarStack**, we leverage modern technologies to deliver seamless, efficient, and scalable solutions. Our stack includes:

Languages

Technologies We Use

Digital Twin:
Powered by Siemens, GE, IBM, and Azure Digital Twins for real-time simulation and analytics.

Multi-Platform:
Built with Flutter, Swift, Xamarin, and .NET MAUI for seamless cross-platform compatibility.

Machine Learning & AI:
Driven by Google, OpenAI, Meta, and AWS for intelligent solutions.

Blockchain:
Built on Ethereum, Hyperledger, Solana, and Binance for secure decentralized solutions.

Cloud Computing:
Driven by **AWS, Azure, and GCP** for scalable solutions.

DevOps & Cloud:
Using Docker, Kubernetes, Terraform, and CI/CD tools with monitoring for efficient DevOps and cloud management.

Security & Performance:
OAuth, JWT, OpenID (Google, Facebook), HSTS (Cloudflare), Caching (Netflix, Twitter).

Testing & QA:
Cypress, Jest, Selenium (Microsoft, Facebook), Postman (PayPal, Shopify).
